**Glass Act is a bar bottle recycling program created and organized by Marion County Recycling & Litter Prevention. Now an estimated 1,000 tons of glass that used to go to landfills every year will be recycled.**

Through a grant provided by the Ohio Department of Natural Resources Division of Recycling & Litter Prevention, and a 50% match from Marion's Ohio Galvanizing Corporation, the Glass Act program provides special glass recycling containers for the exclusive use of the participating taverns and restaurants.

The participants fill these containers with their empty beer, wine and liquor bottles. Rumpke Recycling and Hamm's Sanitation pick up the containers and provide hauling services to Sims Brothers or other glass recycling centers.

The Glass Act Bar Bottle Recycling Program is among the first of its kind in Ohio. The following participants and sponsors are to be commended for demonstrating their commitment to Earth-friendly business values:
